GLOBAL AND PLANETARY CHANGE

# Contents Volume 14, 1996/1997

*Research Papers*

Sea level in the Mediterranean: a first step towards separating crustal movements and absolute sea-level variations
S. Zerbini, H.-P. Plag, T. Baker, M. Becker, H. Billiris, B. Bürki, H.-G. Kahle, I. Marson, L. Pezzoli, B. Richter, C. Romagnoli, M. Sztobryn, P. Tomasi, M. Tsimplis, G. Veis and G. Verrone . . . . . 1

Inference of ground surface temperature history from borehole temperature data: a comparison of two inverse methods
P.Y. Shen, H.N. Pollack and S. Huang . . . . . 49

Permafrost distribution in the Northern Hemisphere under scenarios of climatic change
O.A. Anisimov and F.E. Nelson . . . . . 59

Mud cracks and dedolomitization in the Wittenoom Dolomite, Hamersley Group, Western Australia
J.S. Kargel, J.F. Schreiber Jr and C.P. Sonett . . . . . 73

The faint young sun climatic paradox: Influence of the continental configuration and of the seasonal cycle on the climatic stability
B. Longdoz and L.M. François . . . . . 97

The role of diatoms, dissolved silicate and Antarctic glaciation in glacial/interglacial climatic change: a hypothesis
D.E. Pollock . . . . . 113

Regional, Holocene records of the human dimension of global change: sea-level and land-use change in prehistoric Mexico
A. Sluyter . . . . . 127

Effects of anthropogenic intervention in the land hydrologic cycle on global sea level rise
V. Gornitz, C. Rosenzweig and D. Hillel . . . . . 147

Climate changes of the last two millennia inferred from borehole temperatures: results from the Czech Republic – Part II
L. Bodri and V. Čermák . . . . . 163
